The Laundry Room Attendant said "when a species prepares to depart for the stars, the planet will be shaken to the core. All evolution has pushed for this moment, and there is no going back. What lies ahead is a dimension of freedom and transcendence. Once in that place, the idea of returning (to the womb) will seem preposterous. We will live in the imagination." in sert straight plagerism,, terence terry plumming #03231-045 dedicate to helem

second day,, she shows up at the federal reserve bank in chicago with more letters and a bucket of fake blood to dump on the security guard.

third day,, she goes back to the same federal reserve bank, this time with a non working starters pistol which she uses to stick the bank up for \$26,000 cash then turns around dumps it on the floor and right then and there sets it all on fire. at this point THEY decide she's violated her parole,, she's all like "whateve's" and threedays later goes to another federal reserve bank and using the same techniques to with draw another \$15,000 sets those stacks on fire too. 60 years old she is.
